Pro-guard Anti-Climb System PCD52

For commercial industrial, utility, transport, prisons and schools or any location susceptible to trespass, vandalism or theft.

- Classed as a non aggressive anti climb system.
- Freely rotating anti climb guard which creates an unstable barrier and rolls if an intruder attempts to climb over it.
- Suitable for use in locations where wall spikes, broken glass, barbed/razor wire and spiked rotating systems are illegal.
- Aggressive appearance, deters potential intruders and prevents any attempt to access your premises.

Whether deterrent or security, Pro-guard is proven to make your premises secure, preventing any unauthorised access to property that may be susceptible to crime or delinquency.

A free rotating anti-climb system, Pro-guard offers long lasting performance and peace of mind helping industry professionals make the right security decisions.

Striking the perfect balance between deterrent and security, budget and performance, Pro-guard allows you to enjoy the benefits of a maintenance free perimeter security system...
